MY LIFE

MY CHOICE

The COVID-19 pandemic of 2020 was a chaotic period for everyone and for the first time the idea of death became very real for all of us.

**DEATH** BECAME  
**VERY REAL**

**COVID-19**

# LIFE ITSELF HAS NO **TAKE TWO**

There are many things in life we can repeat, but life itself has no take two.

# HAVE YOU DONE YOUR **PRE-PLANNING?**

Before the Movement Control Order, everyone rushed to stock up on face masks, hand sanitizers, food, and even toilet rolls! We will plan and prepare for almost everything imaginable in life.

But how well are we preparing ourselves for the inevitable? Have you done your pre-planning?

LIFE IS

FRAGILE

Everyone who is born comes with an expiration date which can happen at any time. If we expire without pre-planning, what happens then to those we love who are left behind? What do we leave behind for them?

# WHAT HAPPENS IF I EXPIRE WITHOUT PRE-PLANNING?

## Hasty & costly decisions

Your family has no time for consideration and every decision is made in a rush, leaving them vulnerable and the last major event of your life is left in a mess.

## Family disagreements

Family members argue over funeral arrangements. Who should do what? Who should pay? What rites to follow? Bury or cremate? Where to inter?

## Financial hardship

Your family is burdened financially due to expensive funeral costs

It is time to rethink. What do we choose to leave for our loved ones in the future?

**IT IS TIME TO START PRE-PLANNING.**

# THE **BENEFITS** OF PRE-PLANNING

## Make it easier on your loved ones

You will be able to spare your loved ones the agony of having to make questionable decisions during a vulnerable time.

## Protection against rising costs

You will be purchasing for a future service at today's price rather than the inflated price years later and protect your family financially.

## Make your own choices

You will be able to make your own choices in a relaxed manner together with loved ones on every detail on how you wish to be remembered while you are still around.

## Empower your family

Your family will not need to do any guess work or dispute as to what your wishes are because you have already planned everything out.

# WHY IS PRE-PLANNING URGENT?

**2050**

To resist inflationary pressures, the sooner you  
make your purchase, the more you will save.

**2020**

Pre-planning now saves you RM151,845\*

\*Based on the assumption of a yearly 6% inflation rate
